EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Magluyan on 1/16/07 in order to allow the case by canceling the non-elected claims 8-9.

Please cancel claims 8 and 9.

Reason for Allowance

Claims 1 and 6-7 are allowed for the following reasons:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Saleh et al. (US 6982974).

Claim 1 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein each of the logic blocks has an alterable internal configuration including a plurality of logic elements selectively connected via electric wires and switches such that the connection of the logic elements can be switched,

wherein each of the logic elements has an alterable internal configuration, in combination with the rest of the limitations of the base claim. Claims 6-7 are allowed by virtue of dependency."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
